

# TRADE IS NOT DULL

Merchants Unite in Saying It Has Been Good

## NOTWITHSTANDING THE TIMES

Some Interesting Statements of Fact by the Men Who Buy and Sell the Necessities of Life.

This week's Tradesman contains a number of interviews with business men, tending to show that trade is all branches is exceptionally good. The interviews are as follows:

**E. A. Moseley (Moseley Bros.)**—Our business during this period has been entirely satisfactory, and collections have been good. I believe it is true that Michigan generally has felt the effect of the money stringency less than any other state in the Union.

**W. P. Grainger (Grand Rapids Packing & Provision Company)**—Business has been much better during the past six months than for the same period last year.

**Henry Spring (Spring & Company)**—Taken altogether there has been a slight increase in the volume of business done. Collections have been good.

### Ahead of Last Year.

**W. S. Gunn (Gunn Hardware Company)**—Last year was an exceptionally good one in our business, and we hardly expect to exceed it, but so far this year we run slightly ahead of last, and collections have surprised us, notwithstanding the hard times. We are, as we have every reason to be, satisfied with our trade so far this year.

**T. S. Freeman (Freeman Broker)**—With no business has been very decidedly better during the six months just closed than during the corresponding period last year.

**C. T. Hunting (Hunting & Davis)**—Our business has been satisfactory during the period noted, though we have felt the stringency in the money market somewhat.

**Frank E. Leonard (H. Leonard & Sons)**—Much ahead of last year. Collections good.

### Safe Policy to Pursue.

**S. M. Lemon (Lemon & Wheeler Company)**—We speak only for ourselves. For the month of June our sales and collections were larger than for any corresponding month during our business career, and the first six months of this year showed a marked increase in our business over any previous corresponding period. As to the immediate future our opinion would, at the best, be mere speculation; but for the past sixty or ninety days retail merchants have been reducing their liabilities, and of necessity, have to some extent reduced their stocks; therefore, few, if any, have much surplus stock on hand at present, consequently a hand-to-mouth policy may be pursued for some months to come—and, by the way, that is after all a safe policy to pursue, particularly in close times. Assuming, therefore, that merchants are now carrying light stocks, and that the people must eat in order to live, we see no good reason why we may not look for the usual volume of trade.

### Steadily Increase Shown.

**Amos S. Musselman (Musselman Grocery Company)**—Have nothing to complain of. Are doing a better business every day.

**Frank Jewell (I. M. Clark Grocery Company)**—Trade so far this year is better than a year ago, and collections have been very good. Business generally throughout the state has been very good and we have lost less money during the period noted than in any similar period since the business was organized.

**Nilton Reeder (Reeder Bros. Shoe Company)**—Business is better this year than last, and collections good. We are satisfied with it.

**M. S. Goodwin (Hurdline & Perkins Drug Company)**—Our business was fully 4 per cent better during the six months just ended than during the same period last year. This is very satisfactory considering that the country is suffering from the worst attack of hard times it has had for years.

**Bern W. Putnam (Putnam Candy Company)**—Our business shows an increase of from 10 to 12 per cent for the first six months of this year over the corresponding period last year. But the business ends and the world's fair will undoubtedly have a real effect upon business for the next six months.

### They "Get Business."

**Ed. Donnelly (Hudson, Donnelly & Johnson)**—Our business has been very satisfactory. Possibly "the dull season" has left us to put forth an extra effort to get business anyway we got it.

**William Judson (Judson & Judson Grocery Company)**—Both sales and collections are ahead of last year, and we are very much gratified with the business done.

**R. P. Stevens (Parker, Stevens & Co.)**—Our business up to July 1 this year has never been better, and collections have been good. As to the future, I am no prophet, and have no opinion to offer.

**J. Schneider (Schneider & Sons)**—We have had a prosperous business year. Collections have been very good.

**A. E. Brooks (A. E. Brooks & Co.)**—Our business has exceeded that of last year in the period named. Collections have been excellent. I see no good reason why we should not have a good fall trade crop, prospects are good, and when that is the case, business is always good.

### Prospect is Bright.

**Fred H. Hall (Hall Barnhart Putnam Company)**—Each month has shown a surprising and very gratifying increase over last year's business. Collections are good. The stringency in the money market has not affected country dealers nearly as much as it has the city. The price has been felt mostly in the money market, and among manufacturers. The prospects for the future might be brighter, but we are hoping for the best.

**J. W. Thomas (Hudson Tower Clothing Company)**—Business has been better this year than last. The fire weather, however, March and April started the summer trade somewhat earlier than usual, but the half year was above the average all through.

### Nothing But Four to Blame.

**J. S. Biehl (Biehl, Krause & Co.)**—Business has been satisfactory with us so far this year, but the prevailing depression has affected us somewhat. We expect a still further depression, not only in our line but in trade generally. You see the eyes of good business men looking about at the very things around them. The retail dealer may not be able to sell, and so orders piling up. Small or large from the retail dealer

means less business for the wholesaler, and, if the wholesaler cannot sell as much as formerly, he cannot buy from the manufacturer, who is compelled either to shorten the pay or the hours of his employees. This means a diminished purchasing power on the part of workmen, and so results in reduced sales by the retailer—it runs in a circle, so to speak.

### DETECTED SEVERAL FRAUDS.

Work of the Charity Society is Very Effective.

The Charity Society is doing some effective work in detecting professional paupers and fraudulent seekers for alms. Last week some person telephoned the society office that a man had called on him with a subscription book representing that he was caring for a large family and could not get along without aid. He asked the fellow where he lived and received the reply that he lived at No. 364 West Bridge street. The matter was investigated and no such number was found on West Bridge street. Yesterday another gentleman telephoned that a man residing at No. 264 East Bridge street had called on him with a subscription book and had told a story similar to the story told by the man of a week previous. The case was immediately investigated and no such number existed on East Bridge street. It was quite evident that the man with the subscription book is a fraud. He is still at large, and the society wishes to be notified of his whereabouts if he approaches any one else for aid.

Another case is that of a little girl who sells flowers and pleads with people to purchase them for she is very poor and her mother is sick. As soon as the case was investigated it was found that she had given the right name, but had given the residence of a relative and not her own home. She was traced out and the family was found to be in comfortable circumstances. One member of the family is visiting the world's fair and all were well dressed and well fed. The father forces the child to go out and sell flowers. The society wishes places for several women and wishes to get a girl to take care of a baby while the mother works at her trade. Miss Field wishes the citizens of Grand Rapids to know the kind of work the society is doing, and if application is made for alms she wishes to be notified at once.

### Summer Tours.

The illustrated book published by the Rome, Watertown & Ogdensburg railroad, entitled "Routes and Rates for Summer Tours," is about as perfect as a railroad book can be made. It consists of 225 pages of text, with 100 fine illustrations of noted scenic and summer resorts. It gives a list of 800 hotels, and routes and rates for more than 600 combination summer excursion tickets for Niagara Falls, Trenton Falls, Clayton Alexandria Bay and all Thousand Islands resorts, the rapids of the St. Lawrence river, Massena Springs, Ottawa river, Saginaw river, Ha Ha Bay, Hudson river, Gulf of St. Lawrence, Cape Breton Island, Lake Champlain, Lake George, Lake Memphremagog, White Mountains, Green Mountains, Adirondack mountains, cities of Ottawa, Kingston, Montreal, Quebec, Halifax, Portland, Old Orchard Beach, Kennebunkport and sea coast resorts of Maine and all of New England, St. John, N. B., St. Andrews, N. B., and the Maritime provinces, Boston, New York, and all mountain, lake, river and seashore resorts in Canada, New York and all New England. It contains seven beautiful maps, all of which are printed in colors, and among which are a bird's-eye view map of the country from Niagara Falls to the Atlantic ocean, a map of the Thousand Islands, a map of the St. Lawrence river, a map of Saginaw river, a map of the Adirondack mountains, and a large map of all summer resorts east of Montreal.

This beautiful book will be sent to any address upon receipt of 10 cents postage by applying to:

### The Approaching Dinner Hour

Is fraught with no pleasant anticipations for the unhappy mortal plagued with dyspepsia. Appetite seldom, discomfort after and between meals, always is his portion. Heartburn and distention, and a constant nagging at the pit of the stomach before it, are only a few among the woes arising from this truly insidious complaint. Sick headache, nervousness, constipation and biliousness are its diabolical offspring. Each and all of them are annihilated by Hostetter's Stomach Bitters, which tones the gastric organs and regulates the liver and the bowels with certainty and promptitude. Chills and fever, kidney trouble, rheumatism and neuralgia are also remedied by the medicine of rare purity and comprehensive use. Invalids of all kinds are greatly and swiftly benefited by it.

### OUR BOYS' SAFETY.

A Splendid Machine That is Offered Free for Sixty Herald Subscribers.

The Young America #15 Long Distance Safety is made of steel and wood so combined as to secure the lightest and strongest machine. The frame and wheels are made from the best quality second growth hickory, which is selected instead of steel for these parts because

### Women's Danger.

No man can ever know the devoted martyrdom of many women.

Unsufferingly a woman works and suffers that home and loved ones may be happy. When it seems as though her back would break, when she grows irregular, faint, irritable, loses all interest in society, gets the "blues," is crushed with that indescribable feeling of "bearing-down," she "drags along," day after day, suffering agonies that would appal a man.

The cause of all her trouble is some derangement of the uterus or womb, perhaps the development of a tumor, or cancerous humor, — anyway, give it instant attention.

Lydia E. Pinkham's Vegetable Compound is the sure cure. It is recommended by thousands of women. Its cures are unparalleled.

All druggists sell it. Address: Little, Brown & Co., Boston, Mass. Price 25 cents.

It combines great strength and toughness with lightness.

An all-steel machine made heavy enough to withstand the hard usage to which it is subjected is so heavy as to be a serious drawback to its universal use by young people. Again, the steel machine, without the greatest care being taken to keep them clean and dry, soon become rusted and therefore easily broken; whereas a machine made of steel and wood will not suffer from exposure any more than a carriage.

A hickory framed and wheeled safety is not only more durable and lighter, but it is much more elastic, and the loss of the vibration and rigidity found in the all-steel machine makes these steel and wood machines more comfortable for riding than any other machine made. The cushioned seat is suspended on our patented spiral spring, adjustable to varying heights and weights, and this, in combination with the hickory frame, makes the easiest possible riding machine. The sprocket wheel chain is perfectly adjusted, so as to utilize the full amount of power expended, and is made so strong as to be practically unbreakable. The patented hand, found only on this machine, is a triumph of American ingenuity, and makes the wood and steel conjunction perfectly strong and firm. For these reasons, only the best imported welded steel tubing is used. The rubber cushion tire is secured to the wheel rim in such a manner that it is guaranteed not to become detached or loose. The wheel bearings are a brass collar so delicately adjusted to the steel shaft as to reduce the friction to a minimum, and render the usual ball bearings superfluous. The principle upon which they are made is the same as is used in constructing heavy machinery, where the greatest amount of work must be secured from the least expenditure of power. The entire machine is finished with a heavy coat of glossy black enamel, making a finely finished solid surface, which, when lightened up by its delicate striping and nickel-plated head frame, makes a most beautiful machine, which for lasty appearance as well as positive durability and general wearing qualities is absolutely unequalled, if equaled, by any machine offered. The workmanship is fully guaranteed in every particular. Read Mr. Hla's add, to learn how to get a machine free.
